

Enrole Testimonials

Kankakee Community College

We are still praising our amazing new software to everyone!!! It has changed our way of business. Our IT staff says we are the happiest department that they have ever worked with for a software conversion. Offering early bird discounts increased early registrations. (It's amazing how saving \$10 motivates people.) We actually knew there were enough registrations for our CEU seminars two-four weeks before the seminars were scheduled.

- Deb Hoyer-Denson, Assistant Director Continuing Education & Career Services

University of Southern Maine

During our original implementation of Enrole we were in a time crunch, within 3 weeks we were trained and had completed implementation. We have found Enrole user friendly for both ourselves and our customers. The staff at Entrinsic are perhaps their greatest asset. They are knowledgeable and always willing to answer questions.

- Christie Anderson, Assistant Director of Professional Development

University of Richmond

We would recommend Entrinsic because they have adapted to our business needs. And since no one does business the same way, potential customers should make sure Enrole is the right fit for their organization. Entrinsic's commitment to developing future features is evident.

- Daniel Hocutt, CE Web Manager

University of Richmond

Thanks to the team at Entrinsic for your dedicated efforts to make our multiple clients rollouts a success!

- Tom Walsh, Senior Director, Administrative, Technical & Financial Services

Wichita State University

Overall, Enrole has saved us a lot of time and effort in our daily tasks, which is priceless to us. I would definitely recommend Enrole to others.

- Jody Hall, Assistant Director for Workforce, Professional & Community Education

Umpqua Community College

The number one thing that I love about Enrole is that the staff is so friendly and helpful. You very much feel supported.

- Robin Vanwinkle, Director, Community & Workforce Training

East Carolina University

I love that you can course copy or session copy, so if you're doing something very similar but with different dates, that copy function makes it really easy to be able to add something new or a different session for that same kind of event.

- Danielle Rivenbark, Coordinator, Continuing & Professional Education

Central Oregon Community College

Before, we had about 29% of our registration that was done online. So far with Enrole, just in a little over a month, we've already increased our online registration to 50%.

- Stephen Newcombe, Operations Manager of Continuing Education

Canisius College

Enrole was a perfect fit for us as a complete enrollment management system. It has all the bells and whistles professional development centers need.

- Colleen Lyons, Manager of Sales Operations

An hour of your time can change the way your students look at your online registration site! Visit our website at entrinsik.com/enrole to learn more about Enrole and schedule a demo.
